

Inu Wine - Chardonnay

A Chardonnay from the coastal area near the Pacific Ocean in the Maule valley, which is a privileged origin for growing cold climate varieties. This bright yellow wine with golden hints is recognized for its strong citrus aromas which accompany a superb mineral character. In nose, aromas of tropical fruits like pineapple combine with citric grapefruit notes. In the mouth, fruity flavors combine with a balanced minerality, giving it a nice freshness.

Chardonnay

Varieties: Chardonnay 100%
