

Les Pierres de la Liberté

CÔTES DE PROVENCE 2019

Saint-Cyr-sur-Mer, France

HISTORY

- # There is a legend saying that the stones used to build the base of the Statue of Liberty in New York were coming from a clearing path in the Provence region.
- # To honor this legend, a unique version of this famous monument was built in the village of Saint-Cyr-sur-Mer in 1913, 30 miles from the winery.

BLEND

- # 30% Cinsault, 60% Grenache, 10% Syrah.
- # 12,5% alc.
- # Produced by La Cave du Luc.

TERROIR

- # The vineyard is located on a rocky and sandy soil from the breakdown of the underlying mica schist. The stream and lake create an exceptional microclimate for vine growth. The cold and dry winter as well as the hot summer provide excellent maturity.

SERVICE

- # To be served around 50°F
- # Best before 2021

TASTING

- # Pale salmon-pink.
- # The nose is aromatic and powerful with peach and spicy notes.
- # Amazing fullness and freshness on the palate.
- # A well structured wine, rich on the palate, harmonious and supple.

WINEMAKING

- # The absolute control of temperatures allows for a light extraction of the skin. The grapes undergo a static maceration. The stainless steel vats are equipped with a temperature control very specific, necessary for obtaining qualitative rosé.
